

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-11, 26-31, 35 and 37 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-11, 26-30, 35 and 37-48 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 1-11, 26-30, 35 and 37-48 require providing "directly and not via a controller" a measurement. However, upon review of the specification, this limitation is not described. The applicant is advised to pinpoint such description to the examiner or amend the claims to overcome the 112 rejection.
